1997

After much discussion and planning over the past few weeks, it gives us great pleasure to announce that Casa College will welcome students back on campus for the Fall 2021 semester. Our goal is to maintain the highest academic standards of our programs while ensuring the continuation of the safety and well-being of our community. We will incorporate public health guidelines with all safety measures in place in order to support our students, faculty and staff.

For this semester we will be implementing blended learning which consists of a mixture of online and face-to-face lessons. This means that teaching and learning, will be offered by faculty in class and/ or online, as per academic calendar and planned timetable respecting restrictions on the number of students allowed to be physically present in the classroom.

Walk-in vaccination centres

Getting the Covid-19 vaccine is the single most important step you can take to end this pandemic for good.

In Cyprus, everyone can get a Covid-19 vaccination for free, including refugees and asylum-seekers. If you are a GeSY Beneficiary you can contact your personal doctor and register for your vaccine online, or visit one of the walk-in centres listed below.

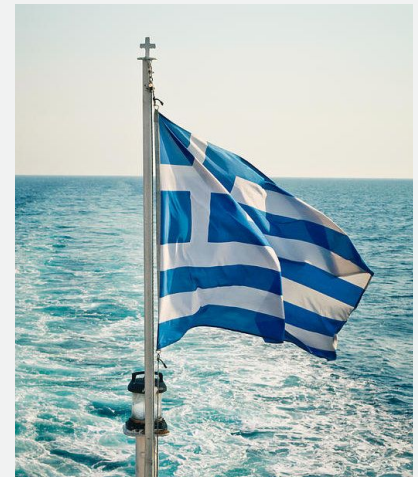

Students from third countries who hold a valid student visa can get vaccinated at any of the walk-in vaccination centres operating around the island starting Friday August 6th, 2021, and will be available every Friday from 08:00-14:00, the Ministry of Health of Cyprus has announced. The walk-in centres operate on a first-come, first-served basis.
